

Health Screening Directions

The survey link can be accessed on the [BC COVID-19 website](#).

Nothing is more important than the health and safety of our employees, students, visitors, and communities. Our goal is to work together to stop the spread of COVID-19 and maintain a healthy campus community.

To achieve this, all employees, students, and visitors entering a Baker College location are required to complete a self-certification health screening prior to coming to campus daily attesting that they are asymptomatic of COVID-19 indicators. Only if unable to complete prior to coming to the campus, a station and/or paper form will be available at the designated entry.

These questions are intended to validate that you are asymptomatic and can safely come to campus.

Assess each question and determine if you will respond with an overall “Yes” or “No” response.

The key questions asked are:

1. Are you fully vaccinated for COVID-19?
2. If no, I understand that if I am not fully vaccinated I must wear a mask while I am indoors on campus.
3. Excluding a known medical or physical condition, have you had any of the following symptoms, as defined by the CDC: uncontrolled cough, shortness of breath, or fever (100.4 or above)?
4. Excluding a known medical or physical condition, have you had two or more of the following symptoms, as defined by the CDC: new loss of taste or smell, muscle aches, sore throat, severe headache, diarrhea, vomiting, or abdominal pain?
5. In the past 10 days, have you tested positive for COVID-19?
6. Have you had close contact (excluding a professional capacity, such as a healthcare facility where appropriate PPE protocols are in place), within the last 14 days with someone diagnosed with COVID-19 or who has experienced COVID-19 related symptoms?

Once your response is submitted, you will receive a confirmation message sent directly to your email.
